

SILICON WARRIOR. PROGRAMMED TO BLOW YOU AWAY.

The year is 2084, and the Silicon Valley is enveloped in a conflict of the fiercest magnitude. Warriors from the House of Peanut, the House of Apple, the House of Adam, and the House of Pong are competing for a computer program which will unravel the mysteries of the Universe and lead to eventual domination.

You are one of the Silicon Warriors, your mission is to program five of the chips in a row before any of your opponents can do the same. They will try to beat you to the task and steal the program or destroy you with

laser fire. Or, you might even be swallowed up by a black hole "bug" in the program that appears when you least expect it. Using your joystick, you teleport from one chip to another as the battle intensifies through seven levels of play.

With the proper strategy and a dash of speed, you can be Master of the Silicon Valley.

One to four players; joystick controlled.
